AI + Human-Led Pentesting

Delivered through VY by VioletX.

A penetration test should not end with a report.

VioletX delivers AI + human-led penetration testing through VY. AI-assisted testing and continuous, agentic monitoring work alongside VioletX security experts who apply human judgment and validate findings. VY connects the evidence, remediation, and retesting to an ongoing live risk picture.

FORMAL DELIVERABLES. EXPERT VALIDATION.

A formal pentest report with expert-validated findings, remediation guidance, and retest results. VioletX provides the human expertise and hands-on support, delivered through VY.
